

A large, stylized number '5' is the central focus of the image. It is rendered in a dark brown color with a slight gradient, set against a background that transitions from a dark brown on the left to a black on the right. The number is positioned vertically, with its top extending towards the top of the frame and its bottom extending towards the bottom. The text is overlaid on the lower portion of the number.

REASONS

TO STEP UP TO THE LEADER IN SMART HOME TECHNOLOGY

For more than 30 years, ELAN® technology has been transforming the way people live. ELAN smart home solutions are trusted throughout the world to bring together advanced, personalized control for music, video, security, climate, lighting, shades, and all the rest – into one seamless system.

MADE FOR YOU

Award-Winning Single App Interface

With a single voice command or touch on an ELAN panel or smart device, you'll experience newfound convenience. This is the industry's only single-app solution with everything you need on one screen. From across the room or globe, keep your residence safe, entertaining and comfortable—inside and out.

- One common interface across all ELAN and smart devices
- All subsystems are pulled into one — no more jumping from one app to another
- So simple that everyone can use it instantly
- With one touch, see who's at the door, turn on music in every room, dim lights, and more

Personalized to Fit You — and Your Life

The unique beauty of the ELAN system is that everyone gets exactly what they want. Personalize backgrounds to match decor, the seasons and more — it's up to you. Create family calendars by color or music favorites for each person. Alerts can be customized to your needs, so you know when service providers or the kids arrive home.

- Customizable for family: from simple set-up to the power user
- Only ELAN products can recognize you and set up screens, rooms or an entire house based on your preferences
- Personalize with backgrounds you want or see a photo when not in use
- The advanced floor plan lets you see your whole house and press one button to turn off all lights, shut garage doors, or set security

You Choose. Fully Customizable Menus and Screens

Floor Plan for Instant Visibility and One-touch Control

Category-leading Video Doorbell and Intercom Solutions

Superior Surveillance Delivers Only the Important Alerts

Seamless, Superior Technology

ELAN products are best-in-class in nearly every category to bring you the most intelligent, advanced home solution. Our parent company is proud to hold over 270 patents. We've developed and assembled world-class IP assets and technology no other company can match. **And they all work together.**

- Category-leading Touch Panels feature high-res screens, Face Recognition and Voice Control
- IntelliVision® analytics for unparalleled identification (used to secure Airports, The Pentagon and Government Institutions)
- Complete intercom and paging system when used with our whole-house speakers
- Simple alerts allow you to be in touch with your home and all entry points — from anywhere

Connect with Everything

Known throughout the world for high quality, durability, and rock-solid reliability, ELAN is a brand by Nice/Nortek Control that has deployed over 5 million connected systems and 25 million security and home control sensors, peripherals and connected products. Chances are, you already have one of our brands in your home!

- ELAN integrates seamlessly with Security and Surveillance Systems, Power and Surge Protection Solutions, Entry Systems, Intercom, and Audio/Video Entertainment
- Goes in smoothly, works flawlessly and is built to last
- Engineered to work together with sister-brands for streamlined installation and service

Works with all the Best Brands for Security, Access, AV and Power Conditioning
